INFRASTRUCTURE ENGINEER II

\$95,201-\$115,710 Annually

Please apply by October 30, 2024

THE POSITION

This position is in the Health Services Agency Information Technology Division. Under the direction of the IT Manager, reporting to an IT Supervisor, the incumbent will support efforts in managing network systems for the Agency. Duties include planning and implementing network/server infrastructure, providing technical support at an enterprise level, troubleshooting network/server issues. The role also requires coordinating with other departments, staying updated on technology trends, and educating staff. They must work successfully with members of the IT team and personnel at all levels of the organization to ensure systems and processes are designed to meet compliance with considerations of current applicable laws, regulations, and standards.

This is the journey level professional class in the Infrastructure Engineer series. Assignments require experience in carrying out network engineering, communication system engineering and server engineering and administration at the departmental, multi-agency or enterprise level. This classification is focused on the maintenance and enhancement the County and Agency infrastructure including local and wide area networks, servers, telecommunications, radio communications, and intranet/internet access. This classification is distinguished from Infrastructure Engineer I in that the latter is the entry level classification performing routine tasks with closer supervision. This classification is distinguished from Infrastructure Engineer III in that the latter is the advanced journey level, responsible for the most complex infrastructure systems and supervises other professional staff.

WELLNESS BENEFITS

The Mission of Club Wellness is to facilitate and encourage the "good health" of the county workforce.

"Good health" is a state of complete physical, social and mental well-being, and not merely the absence of disease or infirmity; health is a resource for everyday life, not the object of living, and is a positive concept emphasizing social and personal resources as well as physical capabilities. The program seeks to increase awareness and knowledge of all employee benefits, nurture a team spirit and positive health behaviors, to motivate employees to adopt healthier habits and to provide opportunities and a supportive environment to create positive lifestyle changes.

CLASSIFICATION INFORMATION

Unless otherwise provided, this position is part of the Classified Service of the County and is assigned to the Technical Services bargaining unit for labor relations purposes.

Individuals who are in a full-time classification are required to serve a twelve-month probationary period, which may be extended an additional six months for a total of eighteen months. Incumbents may also be subject to overtime, standby, callback, weekend, holiday and shift assignments as identified in their MOU (Memorandum of Understanding).

The Job Task Analysis provides information detailing the physical and functional demands of the classification. For the complete job task analysis, visit the Risk Management website:
