Stanislaus County Chief Executive Office – Human Relations team (CEO-HR) is pleased to offer this guide to help you prepare for your Written Test. This guide will help you:

◊ Understand the purpose of written tests;
◊ Learn how to prepare for written tests; and
◊ Become familiar with written test administration procedures.

Who should use this guide?

We developed this guide for anyone who will take a Stanislaus County written employment test. It might be especially useful for people who have never taken one or for people who have not taken one recently.

Disclaimer

This guide provides general information about Stanislaus County written tests. Each County department has its own specific procedures for administering written tests. These procedures may be different from what we describe in the guide.

Also, reading and following the guidelines in this guide will not guarantee that you will perform well on your written test. You may need to prepare in a different way than the way we describe this guide. By merely using this guide, you acknowledge that you understand and agree with this disclaimer.
General Information About Written Tests

We administer written tests during what we call an examination. This is the process of evaluating applicants for a particular job. The recruitment analyst is the person in charge of this process. One of the first steps of the process is for the recruitment analyst to review your application. If your application shows that you meet certain minimum qualifications, you move on to the next step. Often, this next step is taking a written test.

Why do we conduct written tests?

Stanislaus County residents expect public jobs to be filled by capable employees. As a job seeker, you expect a fair chance to complete with other job applicants. Written tests are cost-effective and objective ways for us to satisfy both of these expectations.

How do we develop written tests?

We study the job and meet with job experts to ensure that our written tests reflect the knowledge and abilities that employees need to successfully perform the duties of the job. We do not develop written test questions to be unnecessarily difficult or to “trick” you. Rather, the aim is to accurately and fairly assess your qualifications for the job.

Although you will not know exactly what questions will be on the written test, you are in control of how prepared you will be. Proper preparation will help you increase your confidence and allow you to show your qualifications for the job.

How do we administer written tests?

We administer most written tests in a group setting. This means there will probably be other test-takers in the testing room with you. We also time the written tests. All test-takes will have the same amount of time to complete the written test. Other helpful information is provided on the next page.
**Test Proctor**

The test proctor helps the recruitment analyst administer the written test. At least one test proctor will be in the testing room to check you in, provide instructions for filling out the test forms, tell you about the time limit, and answer any questions about testing procedures. The test proctor will also oversee the testing room to help keep distractions like noise to a minimum.

---

**Testing Room**

The testing rooms at most County facilities have a classroom setting. You will be able to choose your seat and will be asked to leave your personal items underneath your seat. This helps to promote the security of the test administration. Before you enter the testing room, you must turn off any devices with sound (for example cell phones, watches, tablets, etc.) that may distract others.

---

**Test Materials**

Most Stanislaus County written tests have a “booklet” format. You will record your answers on a “fill-in-the-bubble-type” answer sheet similar to the one shown on the right. You will be able to work through problems on scratch paper provided by the test proctor. You are NOT allowed to write in the test booklets.

Also most test questions have a multiple-choice format. This means that you will have a set of possible answer choices for each question, and you will have to select ONE that you decide is the best response to the question. Examples of the test question format can be found on the Test Preparation System (described on the next page).

---

**Test Confidentiality**

Because the County’s examination process is competitive, all examination content must remain confidential. You will leave any materials written on or used during the test with the test proctor. Also, you must not discuss any of the content of the test with anyone except the recruitment analyst or an approved representative of human relations. If we find that you have violated these requirements, you may be disqualified from participating in this and any future examinations.
Written Test Preparation

Well before the test day

You should begin to prepare for the written test as soon as possible! Studying and making plans for the test day should take place over a significant period of time rather than all at once the night before the test. We offer three resources to help you do this; the job flyer, your test notice letter, and the Test Preparation System.

Job Bulletin

The job bulletin is an official document that provides important information about the position and department along with a tentative date for the exams.

Test Notice Letter

This letter informs you of the date, time, and location of your written test. We notify you by e-mail and your government jobs account and is sent 5 business days in advance to give you time to make plans for your transportation and schedule for that day.

- **Transportation** - If you will be driving, a test drive to the facility before your actual test day can help you discover the best route and parking locations and costs, if necessary. If you will be taking public transportation, visit the Stanislaus County Regional Transit site ([https://www.srt.org/](https://www.srt.org/)) to help plan your trip.

- **Schedule** - Most tests last about two hours with added time (for example, 30 minutes) for checking in and receiving instructions. You should plan your other activities for the test day accordingly.

The test notice letter will also describe any items (i.e., calculators or acceptable forms of photo identification) that you must bring with you to the test.
The night before test day

◊ Allow for enough sleep the night before the test date. Proper rest will help you maintain your focus while taking the test.

◊ Plan what you will wear to the test. Choose comfortable, layered clothing so you will be prepared for any room temperature. If your test notice letter indicated the possibility of interviews after the test, you should dress accordingly.

◊ Ensure that you have your transportation plan and test notice letter - with the materials it says to bring - ready for the next day.

On the test day

◊ Eat a light meal before the test. The written test administration will usually last for several hours, and hunger can be a distraction.

◊ Bring the required materials that you gathered the night before to the test facility.

◊ Leave at a time that will allow you to walk from the parking location/public transportation stop, use the rest room, and get a drink of water before your scheduled test time.

During the test

Some mistakes are caused by nervousness rather than lack of preparation. The following suggestions may help you reduce the effect of nervousness on your test performance.

◊ Before you begin, look over the test and decide how you will approach it. Unless otherwise instructed, you can answer questions in whatever order you prefer (i.e., you could start with the questions in the last section instead of the questions in the first section).

◊ Manage your time. Have a general idea of how much time you need to answer each question. If you find that you are spending too much time on a question, move on to the next question and return to it after you have completed the rest of the test.

◊ Read the directions carefully so you know how to answer the questions. There may be different directions for different sections of the test.

◊ Read each question slowly and carefully. Reading too fast may cause you to miss or add words that lead you to choose an incorrect answer.

◊ Read each question completely. Do not assume that you know what a question is asking after reading the first few words.
Try to identify the answer before you read the answer choices; however, make sure to read all the answer choices before marking your answer on the answer sheet.

Mark your answers on your answer sheet as you take the test. Though you may be able to write on scratch paper, your score will only be based on what you mark on your answer sheet. Given the time constraints, you should avoid waiting until the last few minutes to transfer answers marked on the scratch paper to your answer sheet.

Make sure to bubble in your answers fully while not overfilling them at the same time. If the answer sheet is too messy the scoring machine may mark and answer wrong because it is unable to read it properly. Neatness is key to ensuring your test is scored properly.

Periodically check to make sure that your answer sheet responses match to the question you are answering on the test. For example, if you are answering question 15 on the test, make sure that you are marking the space for number 15 on the answer sheet. This is especially important if you skip any questions to come back to later.

If you change your answer to any question, be sure to erase it completely from your answer sheet.

Do not let early finishers distract you. Everyone has a different test-taking pace and we do not award special points for completing the test first.

Review your answers after you have completed the test, if time allows. Make sure that you have answered all the questions.

**After the Test**

After the test, the recruitment analyst e-mail you with information about your test results and/or the next steps in the examination process. The time to receive this notification is typically 5-7 business days. Candidates who successfully advance through the entire examination process will be placed on an eligibility list. Stanislaus County can only hire people whose names are on this list. Placement on an eligibility list does not guarantee that you will be hired. Instead, County departments will contact individuals from this list when they have a job opening.
This guide provided you with general information that can help you prepare to take a written employment test at Stanislaus County. Proper preparation is the best way to show your qualifications, and we wish you the best in your efforts.

Other Resources

We do not specifically support or recommend any preparation resources beyond this and other guides found on the Test Preparation System. However, if you would like additional test preparation, the following may be helpful.

- Stanislaus County Workforce Development centers ([http://www.stanworkforce.com/](http://www.stanworkforce.com/)), which is a Stanislaus County Department that has many resources for job seekers.

- College and universities often offer career development resources to their students and alumni.

- Local public libraries offer many resources that may help you in your preparation.
